Short Shorts Film Festival & Asia (SSFF & ASIA), one of Asia's largest international short film festivals accredited by the Academy Awards®, has announced the winner of the "Save the Earth!" Competition. The winning shorts of the Minister of the Environment Award and the J-WAVE Award, will be announced and screened on the SSFF & ASIA website on June 5, 2022 (JST).

Save the Earth! (The Minister of the Environment Award) will be presented to "Penthouse" (dir. Vegard Dahle & Line Klungseth Johansen), a Norwegian film that depicts the collapse of humanity through the story of a couple who lives in a flooded world, and the Save the Earth! (J-WAVE Award) will be "Present for Future" (Dir: Shamir Raiapov), a short, one-minute film from Kyrgyzstan with a breathtaking storyline.

Both films will be available online.

SSFF & ASIA established the "Stop! Global Warming Competition" in 2008 in cooperation with the "Challenge 25 Campaign" for the prevention of global warming, and was reborn as the "Save the Earth! Competition." From 2020, the festival has expanded the "Save the Earth!" Competition to include more diverse global issues.

We hope that the drama depicted in the short films of these award-winning shorts will create an opportunity for people to become more aware of the situation the earth is currently facing and to share their hopes for the future.
